proportions, and the six events were disposed of with little lose of time. Most of the visitors were in a speculative vein, and those who "followed the money" were broad smiles on the homeward trip, four favoritee having pulled through. As all but one were backed down to odde-on the ring must have suffered severely. The principal event on the card was the fourth race. This was the Rockaway Stakes of \$600, for three-year-olds and upward, and with Bannock, Varus, and Irish Reel scratched Dave Gideon's colt Leedsville was plunged on as the best of the seven left. He was played down to 9 to 10, while 9 to 2 was on offer against the second choice, Tabouret. The bet-ting reflected the result. Leedsville took a prominent position before leaving the backstretch, with Tabouret at his girths. Zanone showed the way to his field until straightened for home, when he dropped back. Maher took Leedaville to the front in the last furlong and drove him home a neck in front of Tabouret, who beat

Takanassee a length.

Eight two-year-olds went to the post for the first race, a dash of five furlongs. King's Pride was a pronounced favorite at 3 to 5, but after scenting a chance to get away he ran out and trailed along behind the bunch. The 9 to 2 second choice, Effervescent, and Morris's Russella Walden at the good odds of 7 to 1 had the race between them, the latter winning cleverly by half a length. The rest were strung out, with the Dwyor colt Chanler leading the procession. The Kensico Stable bid \$1,000 for the winner, \$300 over her entered price, and her owner,

The Kensico Stable bid \$1,000 for the winner, \$500 over ner entered price, and her owners made no effort to buy her in. Kinnikinnic was selected as the medium of a big plunge in the second race. His price was quickly cut to 2 to 5, although his owner did not invest a cent. Irving took the Candlemas colt out in front and, maintaining his advantage, won by a lenath and a half from Juno, who shut Arabian out of the place by three-quarters of a length.

By this time favorite players were thoroughly warmed up and they backed Prince Auckland down to 13 to 10 for the three-year-old race out of the chute. Maximo domez, the golding which W. Lakeland recently transferred to Mike Clancy for a nominal sum, upset all calculations. He rushed to the front after striking he main track and opened up a gap which he stretched into three lengths rounding the turn for home. The others failed to get near him at any stage and he romped in a winner by several lengths in the fast time of 1:27. Vigenta beat the favorite a length fer the place. The Quicklime filly Octave carried considerable money, but she started sluggishly and was never a factor afterward. ctor afterward. The stewards were not satisfied with Prince

The stewards were not satisfied with Prince Auckland's race and held an investigation. After examining the bookmakers' sheets it was decided to refuse the stable entry for the balance of the meeting and repert the case to the Jockey Club. It was said that at least one book had won heavily by laying liberal odds against the favorite.

To the surprise of form students Prestidigitatice was only a lukewarm favorite in the dash for two-year-old fillies. The liberal odds of 7 to 5 were on offer against her, with Amorita in hot demand at 7 to 2. Lady Dora was quietly played at sizes and nearly brought off a coup, as she was only beaten a head by the favorite in a driving finish. The good thing in the last race was C. F. Dwyer's Sly Fox, and backers seemed willing to take any price. The colt had his field tiptoed all the way and won well in hand by a meek from King T.

To-day's programme includes a handicap for three-veryeds.

MIRACLES HIS EYES SAW

MR. LEGHARD EXAMINED SPOOK-REHOLDING EXPERT.

Lities Poll Into Bin Lap at a Two-Bolla Baby and Thon Into a Weman He Masw, The Sheriff's jury which is considering the mental condition of Mrs. Harriet E. Beach-Rogers heard yesterday the testimony of E.

Crawford Leonard, called as an expert. Mr. Leonard, who is in the petroleum business, is 86 years old, but apparently vigorous in mind and body. He had beard that Dr. Henry Richardson Rogors, who married Mrs. Beach, was one of the famous mediums of the country, and he took a furnished cottage for two seasons at Onset, Mass., where Rogers summered four and five years ago. Rogers put a piece of canvas between two slates, which the witness held in his hand, and without the removal of the slates and canvas from the possession of the witness Rogers went into a trance, and a picture of a brother-in-law of the witness appeared on the canyas. Before this phenomenon had appeared Rogers said he would not charge Leon ard anything unless Leonard, got something. Rogers explained that some persons got some-thing, and some got left. When the opening of the slates showed that Leonard had got something, Rogers charged \$10 for the picture, "No one can explain such phenomena," said

something, Rogers charged \$10 for the picture.

"No one can explain such phenomena," said
the witness. "That work could never have
been done by human agency."

"Tell us a couple of instances of the most
wonderful things you have seen in forty years."
asked counsel. The witness eagerly began:
"I attended a seance with about a dozen
other chosen persons, who all sat in a circle
about a medium. The doors and windows of
the room were scaled so that nothing could be
brought in and we could see all that was in
the room. The medium asked me what I
would like, and I said a calia lily. The lights,
which we had turned low, were now turned up,
and I had a beautiful and fresh calla lily in my
lap. I sat close to the medium and I would
have known if she had moved. Different people asked for other flowers, and they were received in the same way. Again I called for
illies of the valley, and when the lights were
turned up I found in my hand beautiful and
fresh filles of the valley, roots and all, and
with the dirt clinging to the roots. I took
them home and planted them, and they grew.
One person called for a bird, and a bird that
looked like a canary was put in his hand.
About a bushel of flowers were produced at that
seance.
"Did the flowers grow or the bird come out

About a bushel of flewers were produced at that seance."

He added that the admission, which is usually a dollar, was \$2 in that case.

"Did the flowers grow or the bird come out when the lights were up!" asked Commissioner William H. Wills.

"No; only when the lights were dim," returned the witness.

"At another seance," continued the witness, a group ast about a redium in a dimy lighted room. I was called forward to the medium, who pointed to the floor and asked me if I could see a small white thing on the floor. I told her I saw it, and I was told to watch it. As I looked it gradually grew in size and 2000 a little baby was on the floor in white. Soon a girl of 8 or 10 years developed, and later the small white object had become a woman. I recognized her as Carry Sprague, a daughter of my cousin. The woman knelt on one knee and called for paper and pencil. A pad and pencil were given to her with which she wrote on her other knee as a rest:

"Dear ma, do not mourn so much for me. You make me feel badly. I am always with you. She then disappeared as gradually as she came. Most wonderful and unexplainable. I took the writing and gave it to her mother."

"Light up or down!" asked a juror in a businessilke war.

"The lights were low." returned the witness, "That is one thing about all the séances; the lights are always dim. They say the light has a dissolving quality on the spirit. ""

saked counsel.

"Immaterial." objected Lawyer Hamilton. Before a ruling could be had the witness said: "It passes human understanding."

Counsel for Mrs. Rogers wanted to know if Roentgen, the discoverer of the rays that bear his name, and Crooke, the inventor of Crooke's tubes, were Spiritualists, and the witness said: "Do you know whore a spirit could be seen by us to night!" asked one of the jurors. The witness handed the juror a card with the names and addre-ses of twenty-nine mediums, men and women, but mostly women, which the juror put away in an inside pocket. The list has the printed heading "mediums' directory."

Henderson, with a view of equalizing the combat, drew a revolver, but before he had a chance to use it James knocked it from his hand with a heavy cane and then struck him on the head several times. Henderson put up a stiff fight, but when the hostilities were stopped by the arrival of two policemen he was at the mercy of his assailant. The three men were taken to the De Kalb avenue station, and after wounds were dressed by an ambulance surgeon they furnished honds for appearance in court in the morning. They came before Magistrate Teale in the Myrtle Avenue Police Court yesterday morning. Examination was postponed.

Mooning Up Its Crusade. The Woman's Health Protective Association met at the Academy of Medicine, 19 West Forty-third street, yesterday. It was the last meeting but one of the season. Mrs. Ralph

Trautman presided. Two letters were read which made the Protectionists feel quite proud. One was from President McKiniey's private secretary and the other from Capt, Sigsbee. A few weeks ago the association sent a letter to the President expressing its admiration of the wisdom of his conduct in the Cuban matter, and another to Capt. WINDWARD TURNED OVER TO PEARY

Days Out-But the'll Get Here. The auxiliary steam yacht Windward, overdue at this port, was formally presented to Lieut. Peary at a luncheon given yesterday at the Holland House by Lieut. A. B. Armitage, who represents the donor. Alfred Harmsworth of London. Under the command of Frederick Jackson and Lieut, Armitage the Windward was employed in the expedition to Franz Josef Land in 1894. On one of her trips back to Eng-land she brought the explorer Nansen. On her return last September, her owner, Alfred Harmsworth, had her completely refitted, raised the Stars and Stripes at her masthead himself and sent her over to this country to be used by Lieut. Peary in his next Arctic expedition,

The Windward has been forty-five days on her voyage. Lieut. Armitage expressed no anxiety about her safe arrival here. "She is coaled for a long voyage and is a good seaworthy boat," he said to a Sun reporter yesterday. "She is manned by a crew of twenty naval militiamen, and I have the utmost confidence in her Captain, Reid. She flies the English flag and will probably not be molested by any Spanish

The lead company has claims against the Government for \$75,000 for rebates due on lead products exported, and Assistant Attorney General Hrannigan intimated that payment would be realisted and the lead company compelled to bring suit te recover. would accept a voluntary non-suit, as the Gov-
